JENNIFER KOSENCHA

JUNIOR SOFTWARE DEVELOPER | WEB & APPLICATION DEVELOPMENT

(+254) 704 239 554 | jenniferkosencha@gmail.com | Nairobi, Kenya | GitHub: *https://github.com/Jkosencha* | LinkedIn: *linkedin.com/in/jennifer-kosencha-59730325b*

PROFESSIONAL SUMMARY

Software Developer with a Bachelor of Science in Software Development and hands-on experience building web applications, management systems, client-facing websites, and mobile applications. Strong foundation in JavaScript and React with practical experience in responsive interfaces, REST APIs, CRUD applications, Git/GitHub, and full-stack development workflows. Experienced in collaborative and client-driven projects, with additional professional experience providing software and technical support. Completed a Software Engineering Full-stack training at Moringa School.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, Python, Kotlin

Frontend: React, Vite, Tailwind CSS, React Router

Backend & APIs: Express.js, Django, REST APIs, CRUD

Databases: PostgreSQL, MongoDB, MySQL, Firebase

Tools & Platforms: Git, GitHub, Docker, Render, Heroku

Software Development: Responsive Web Development, API Integration, Data Structures & Algorithms, Test-Driven Development

SELECTED SOFTWARE PROJECTS

ANIKA Initiative Website, admin dashboard and whatsapp AI Assistant | *React, Vite, Tailwind CSS, React Router, JavaScript, Python, Flask, SQLAlchemy*

- Led a five-person team building a nonprofit digital platform (public website, role-based admin dashboard, and a WhatsApp assistant) as a Moringa School capstone, translating brand guidelines and client

requirements into a responsive React build. • Set up the team's Git branch-and-pull-request workflow with branch protection so five developers could contribute in parallel without conflicts.

- Implemented multi-page navigation and interactive experiences with React, React Router, Vite and Tailwind CSS, delivered through an iterative, client-driven process of requirements, feedback and handover.

Sunrise Minimart POS | *JavaScript, React, Supabase/PostgreSQL, M-Pesa integration*

- Built a business-focused point-of-sale system for managing sales, inventory, staff, payments, and operational reporting.
- Implemented features including product management, sales workflows, role-based access, dashboards, reporting, and payment workflows.
- Worked on a practical system designed around real-world retail operations and business process requirements.

Meridian Hospital Management System | *React, Vite, Tailwind CSS • Web Application Development*

- Developed a role-based hospital management application supporting workflows for different hospital users.
- Built interfaces for administrative and operational activities with a focus on usability, responsive design, and structured application workflows.

Leatherly Android Application | *Kotlin, Firebase • Android Development*

- Developed a mobile e-commerce application for browsing and purchasing leather products.
- Applied Android development concepts to create a mobile shopping experience.

PROFESSIONAL EXPERIENCE

HSC Systems Limited - IPTV & Software Support | May 2024 - Feb 2026

- Provided installation, troubleshooting, and maintenance support for software and IPTV systems.
- Assisted customers with technical inquiries and resolved software and service issues efficiently.
- Collaborated with technical teams to support service delivery and customer satisfaction.

Namelok Naretoi Home for the Handicapped - IT Consultant / Volunteer

- Developed the organization's website to strengthen its online presence.
- Managed data and supported office operations, including registration and record keeping.
- Conducted computer literacy classes for children.

EDUCATION

KCA University, Nairobi, Kenya | Sep 2020 - Nov 2024

Bachelor of Science in Software Development

Relevant coursework: Web Development, Databases, Application Programming, Data Structures & Algorithms, Discrete Mathematics, Distributed Systems, AI Programming, Simulation & Modeling, Mobile Gaming Programming.

PROFESSIONAL TRAINING

Moringa School, Nairobi - Software Engineering Full-stack | Feb 2026 - Sep 2026

eMobilis Software Institute, Nairobi - Android Development | Apr 2023 - Jul 2023

Inceptor Kenya, Nairobi - Web Design and Development | Apr 2021 - May 2021

PROFESSIONAL STRENGTHS

Problem-solving • Team collaboration • Communication • Adaptability • Client engagement • Attention to detail • Initiative • Time management • Continuous learning
